2.5.1 - Mechanism of internal assessment is transparent and robust in terms of frequency and mode. Write description within 200 words.

The internal assessment mechanism of the college is based on affiliating University and UGC(CBCS) proposals. In order to take the semester-end test, a student must have at least 75% attendance. Internal Assessment is worth 10/15 marks. On the basis of the class attendance 05 marks are given to the students. The administrator/governing body forms an Academic sub-Committee with a representative from each department to oversee and regulate the teaching-learning process and other examination processes. Every department receives the decisions and schedules that were decided in the Academic sub-Committee meetings, and each department then finalizes the evaluation schedules in Departmental meetings. Assignments, presentations, and projects are used to evaluate a student's grade in each different department.

7.2 - Best Practices

7.2.1 - Describe two best practices successfully implemented by the Institution as per NAAC format provided in the Manual.

[I] Title of the practice: Blood donation camp

The main objective of this camp is to make the student aware about the benefits of blood donation for society and to encourage them for blood donation. Though there is a hospital near the College, but it quite often runs out of blood and plasma. The NSS and NCC unit organized blood donation camp. Overall, the Blood Donation camp was a great success but because of covid aftermath, it was difficult to get the desired number of blood donor.

[II] Title of the Practice: Library orientation programme

The main objective of this orientation programme is to accustom the students with ways and means to online access our library catalogue. As school students they were not familiar with online

access to library catalogue. Thus, it becomes a matter of paramount importance to familiarize them with the operation of a college library. As the library need of our student is colossal, this orientation program is of much necessary importance for the students. The library staff under the leadership of the librarian organized orientation programme for familiarizing 1st semester students and the subsequent response from the student was very positive.

7.3 - Institutional Distinctiveness

7.3.1 - Portray the performance of the Institution in one area distinctive to its priority and thrust within 200 words

Keeping in mind the stated vision, the college authority has prioritized women's education in this backward area. The college played a crucial role in empowering women and promoting gender equality, as practiced here in this institution. Some potential indicators of success can be noted below:

a) Ours is the only institution in the sub-division to offer to study in science streams. So, it has been a unique opportunity, especially for the women, to realize their dream to go for higher studies in science. The male-female ratio in the science stream (approximately 70:30) is a testimony of our success in attracting the girls for higher study in science.

b) The women students, along with other minority students can access the resources provided by the government and the same being facilitated by the college to support women's education, such as scholarships, mentoring programs, and counselling services.

c) The success of female graduates in finding employment or pursuing further education after completing their studies, are considerably high.

d) Moreover, ours is the only institution in the sub-division to have the study centres of both IGNOU and NSOU, which also have enabled the women of the locality in particular to pursue higher education.
